My experience in the frontend

I have experience in frontend development, working with technologies such as HTML, CSS, JavaScript, and React. I have built responsive web applications and user-friendly interfaces, ensuring seamless user experiences.

Specify my hobby

- In my free time, I enjoy exploring new web development trends, reading books, and analyzing UX/UI design principles.
- I also like playing video games and watching tech-related content.

Provide a link to my old projects (photo)

YES

You can check out my previous projects where: fake-link.com/my-projects I plan to create a repository in github and attach a link
